Game Rating System Explained

Games are described using a two tiered system: the GENERAL condition categorizes each game in a consistent & meaningful way. So, you'll know the condition of each item before buying—and be pleased when you receive it. This reflects the overall condition of each game and, with the exceptions noted whether the game is punched. SPECIFIC conditions details any variations from what you should expect in each GENERAL category as described below.

- Unpunched: NEW** - Unopened, in original shrink wrap. May have exterior box damage if noted. Same as an unopened MINT item.
- MINT** - Opened & unpunched. Some counters may have separated from tree on their own, but has never been played. May have component damage if noted. May also be perfect in every respect, noted by "PRISTINE" or "CHERRY".
- Punched: EXCEL** - A mint game that has been punched becomes "excellent". A few minor signs of wear may be included, easily replaced items (eg dice) may be missing, rules highlighted, or counters NEATLY clipped if this is noted. Complete. Older games may have proportionally greater signs of age.
- V.Good** - Shows signs of wear, use or slight abuse such as some soiling of rules or counters, modes staining, box tears, etc. Unique components complete or neatly replaced.
- Good** - Has some significant defect(s) that may be more aesthetic than functional. May be missing a few components.
- Fair** - Major defects, required parts damaged or lost; playable, but not collectable.

Clash of Carriers #58 151280 \$35.00 New HP OoP 4											
Mag & game. Game of the largest carrier battle in history, the Battle of the Philippine Sea, which included a total of 24 Japanese & American carriers. The result shattered the remaining Japanese carrier power for the balar of the war in what was called a turkey shoot. Historically, the Japanese failed to coordinate their strikes. The Japanese has the advantage of longer range to both carrier & land-base airpower, but the US has qualitatively superior forces. The US player may seek to attack more of the Japanese surface fleet rather than settling only for defeating their air forces. Detection plays a major role, with air reconnaissance & submarines playing a key role. Air strikes, surface battles and submarine hunting are played on tactical maps. Scenarios offer the historical OoB, but also what-ifs with additional surface & air forces, and allow greater coordination. 1 map, 320 counters. Mark Stille'23

Breaking thru, the French surrounded the Third Coalition forces. 600yd/hex, brig level, 1hr/turn, 1 map, 216 counters. Ty Bomba'23

Secure permission to start, secure scarce resources & personnel to develop a program, and go for broke despite the many other pressing needs of a nation at war. Oh, and spy on & sabotage your competitors' efforts, this being the Reich. Designed to show how difficult it was mout a nuclear program despite the appeal of the goal.Quick playing. 108 cards, 64 counters. Steven Cunliffe'19

Units are demi-divisions, 2-3days/turn, 3mi/hex, 1.5 countersheets. Designed by a yeoman designer, Ted Racier'.
