www.FineGames.com/retirement.htm

For **Fine Games' 8th Retirement Liquidation Sale**, we offer a comprehensive catalog of ALL the **1,457** remaining spare & stray parts that **Fine Games** has accumulated over our 30 years in business. We've priced them with a nominal, base price of \$1 or \$2, and adjusted that where greater or lesser value is offered. That price is more for the labor to collect the items than for the goods themselves as we have a mere \$366 invested in these 1700 items. All parts here are in dire need of a good home -- most especially the game boxes. They will be the first to meet the dumpster when that becomes necessary.

Each item here is a component (or a set of components) of a game, but NOT a complete game in itself. These include both new, new but dinged, & used items as indicated. This is an exhaustive list; we do NOT have additional, unlisted parts available. Each item is listed individually, Qty=1 only.

Shipping will be assessed based on shipping weight, as with previous sales. Because we do not have weights for parts, we will estimate at the time of your order based on the shipping rate chart below, and contact you if actual charges are significantly more when assembled and packed. Anything that fits in a flat rate envelope ships for \$11; in a flat rate medium box for \$17.

Prices are stated on a cash basis where you send a check. You will pay 3.75% more if paid by PayPal (to PayPal@FineGames.com) or credit card.

We also maintain a catalog of these same universe of parts sorted by Publisher & Title only (i.e. not by part type), which may assist in looking for parts for a game. If you'd rather shop by publisher & title (rather than part type, publisher & title as here), download our standard parts list at

www.FineGames.com/text/parts_finegames.pdf

Note that this alternative catalog shows our standard prices, but we will honor the sale prices on all of our parts.

Place your order by emailing or phoning us, quoting the part#, Item description and price of the parts you want in this fashion

123456 Nuclear War at Fine Games part / box \$1.00

Expiration of this offer is less firm than other sales as these parts have to find a home. We will likely make these prices permanent. But for your procrastenators out there, the formal expiration date is **11.59pm, 3 May 2022**.

PLEASE give some of these parts a good home!

We will quote costs per a specific order using the least-cost method. Contact us for rates for 26# or more. Note that both dimensional weight and packaging weight must be considered to arrive at the final weight to be charged, and that surcharges for rural zip codes still apply in addition to the prices stated here.

In general, we will estimate shipping weight and shipping charges at the time of your order. After shipment, if there is a significant discrepancy between estimated and actual shipping weight, you will be credited or debited as appropriate to reconcile to actual shipping weight as assessed by the carrier (generally UPS).
