What **Fine Games** offers you here, thru this rather massive catalog, is sharply discounted access to **9,174** games, magazines, dice, DVDs and gaming accessories, each available NEW courtesy of our primary distributor, Alliance Distributors.

**Fine Games offers special order discounts of up to 35% off the list price of non-wargame items.** This includes all items available from our distributor's western warehouse that are from publishers other than our core wargame publishers. Discounts are reflected in **Fine Games** price below (stated on a cash-basis). **Please tell your friends as this is a highly competitive offer for a broadest range of wargames, family games, role playing games, collectable card games, books, DVDs & hobby accessories.**

**To order, please copy & paste, or simply quote the item title, discounted price and mfg's part #.**

This catalog shows our distributor's entire inventory (currently excluding only those items not currently available at any of their four warehouses). It is displayed by (1) Publisher and (2) Item title (as our sometimes creative distributor lists it). The manufacturer's part# is shown to clearly identify the item, and allow you to cross-reference this with what you might find elsewhere. We also show the list price (FYI) and Fine Games cash-basis normal selling price. *(You forego the cash discount implicit in our prices, and thus pay in effect 3.1% more, if you pay by any method that includes fees to us. Also, you may notice small discrepancies between this catalog & all our other catalogs; we have not yet "connected" this large & crude data base to ours.)*

**Note that as a rule anything ordered from this catalog will be special ordered and is not taken from our stock. Allow at least 7-10 days for delivery, and on average 2-3 weeks turn around time here.**

Lastly, this catalog includes what we hope is a pretty clear indication of the actual availability of each of these 9,174 items. Our primary distributor has four large warehouses scattered about the USA. Our "primary" warehouse is in California, 2 days away by UPS. If this warehouse has it, we can obtain the item easily and quickly. The "# Secondary" column shows the number of their other 3 warehouses that have the item on hand. If two or three secondary warehouses have it, we can get it but with a bit more delay. If even a single warehouse has an item in stock, we can obtain it if we act swiftly.

In a time when gamers are leery of availability info, we hope to provide real info to you, and thus to reduce the risk of disappointment.

Note that this distributor once offered the public direct access to their database, but after a recent system "upgrade" that service is no longer available. Sorry.
