

This is an ongoing sale of surplus games from my personal collection. After moving too many frigging boxes in 2004, these games are being sold because either they are bulky and/or they just don't appeal to my gaming preferences. This list represents the entire list of games I'm interested in selling as of 12/11/2018. More may be added intermittantly. And the best -- including some SPI Poultron Press games, is yet to come.

Note that my personal games are now integrated into all of Fine Games master catalogs, too. This catalogs shows only my personal games for sale.

All items are available in quantities of one, only, and are subject to prior sale. So if you want something, you'd best call now rather than later! Prices are subject to change, and items are added or removed from this list periodically. For the most current listing of what is available, download the current list from the Fine Games web site at: www.finegames.com/text/personal.txt.

For most purposes, personal sales are handled identically with those of Fine Games' stock. Orders are paid in a single payment (unlike in the past), and shipping is generally our standard shipping charges, with a minimum charge of \$15.00 per order containing boxed games, and may vary with the particulars of your order. Items here may be added without additional cost to any order of Fine Games products; pay only Fine Games's normal shipping charges in this case, which would typically be to your advantage.
